Cards

IB	MB	App	Feature
✓		✓	Card activation
		✓	Card lost / stolen (report)
✓		✓	PIN change on your card

Your Security is our Priority

All transactions are conducted securely. First Option adopts rigorous identification confirmation to ensure the security of your accounts. For **IB** and **MB**, we use a NetCode (at login stage) and SMS One Time Passwords to conduct certain transactions, such as external transfers. For **Easy App** you'll need your IB login and NetCode to register. You then authenticate each session via fingerprint, a PIN or a pattern.

How to Register

For **IB** and **MB**, contact our friendly team or apply online. New Members can register as part of the joining process. For **Easy App**, download "**First Option Easy App**" from Google Play or the App Store. Enter your IB login details and then choose your preferred method of authentication.

Terms and Conditions: You have the option to change your NetCode / Passcode at any time. First Option recommends that the code be changed regularly for security purposes. Full terms and conditions for these services are available from First Option Bank.

This is general advice only and does not take into account your individual objectives, financial situations or needs. Before acting on the advice, consider its appropriateness. You should read and consider the Account and Access Facility – Conditions of Use document and Financial Services Guide before deciding whether to acquire any product mentioned.
